AutoStar®

AutoStar®: It Finds Things For You!

The AutoStar computer controller automatically guides your telescope to over 1,400 objects. View planets, stars, galaxies, and nebulas all at the push of a button. Don't know what to see on a particular night? Don't worry. Just select the Tonight's Best™ tour and AutoStar will automatically take you on a guided tour of the best planets, stars, nebulas and other objects out that particular night. Want to know more about what you're looking at? The LCD display teaches you about what you're viewing with details like distance, temperature, mass, and historical information. AutoStar is your guide to the universe.
